Notification of building works at Ann Bernadt Nursery

Date: 9 January 2020

Dear Parent/Carer,

We are excited to let you know that over the next 6 weeks we will be improving our resources at this nursery school.

We are working with Playgarden to improve the outdoor provision. We are re-building our sandpit to improve the drainage and access. We are also removing some fixed play equipment, which is nearing the end of its purposeful life and replacing it with a climbing mound. We are also re-developing a currently unused outside area next to the children's centre to become a sensory garden, which will benefit all children. At the end of January, we will be installing a sensory room specifically to enhance provision for our children with additional needs.

In order for our current children to benefit from these improvements we have taken the decision to carry out the work in term time, otherwise we would have to wait until the summer holidays when a lot of our children move on to other provisions. We will have a small team of DBS checked builders completing the works over the next few weeks. The majority of the work will take place in areas currently not used by the children but some materials are being stored in our outside area, which has been sectioned off from the children by high fencing.

We are looking forward to all the additional benefits provided by our new improved play facilities. If you have any questions please don't hesitate to ask for further information.

Kind regards,

Head of School and SENCo
Levia Ostrove-Pound
